

Christchurch North Parish - Building Project

Building Committee – Parish Group Engagement

13th Oct 2020

The Vision for the Christchurch North Parish

Our vision for the Catholic North Parish is of a missionary parish bringing people to come to know Jesus Christ personally, helping them grow as disciples, and going out to other with the Gospel message.

How do we translate that vision into a design brief for our Church and Pastoral Community Centre?

The Building Committee Scope

- ▶ Overall scope of the Building Committee
 - ▶ Build a Church and Pastoral Centre on the Papanui site
 - ▶ Sale of existing buildings and properties in the parish which will eventually not be required.

- ▶ Within this scope
 - ▶ Consult with the Parish for the new buildings
 - ▶ This includes the schools that reside within the Parish
 - ▶ Manage the timeline
 - ▶ Report to the Parish, Leadership and Diocese on progress

The Process

- Need to develop a design brief for the architect.
- Need to ensure the concept meets the needs and desires of the parish.
- When there are need decisions to be made, we want to make sure we deliver on what is important to the parish.

Thank you
